Phone Julia Fischer (DoIT), Brad Wolters (DHCD) and Anthony Puzzo (Esri).

Attendees:

Agenda

Introductions

Round-the-room

Maryland Enterprise Software Update – Matt Sokol, Julia Fischer

- The GIS Software Master Contract will not be on the June 8, 2016, BPW agenda. It will be presented at the following BPW meeting on June 22.
- It is planned for the Master Contract to be in place on August 1, 2016. Since the current ESRI ELA ends on June 30, 2017, there will be a one month gap in ESRI software maintenance and support in July. DoIT's GIO office will provide Tier I support during this time.
- ArcGIS Online (AGOL) will be funded by DoIT starting July 1, 2016, and through the end of June 2017. This includes the main Maryland organization and MD GeoShare

ArcGIS Online (AGOL) Single Sign-on Update – Matt Sokol

- We are in week 2 of the migration
- Most issues have been related to browser caching.
- There were a few issues with the Collector App. A technical support call is scheduled for this Friday with the single sign-on integrator and ESRI.
- The workflow for connecting from ArcGIS Desktop to single sign-on will soon be posted to the MD iMAP Portal pages.
- When AGOL content is migrated the modified date for items is updated to the migration date.
- It was suggested that users take screen captures of the list of items and associated dates from the old login while it is still available.

MD iMAP 2.0 Update – Matt Sokol

- Property data has been updated. This includes cached vector parcels, parcel points, tax map grids and tax maps.
- An image service of tax maps has been created to allow users to change the color of the maps

- Fixed the SDAT links for Baltimore City parcels.
- The updated property data has been forwarded to Joshua Exler for updating the real property data searches in the Open Data Portal.
- Matt Sokol is working with DGS on the State Facilities service
- DoIT is working on putting LiDAR data on DoIT servers that are now currently on Salisbury Univ. servers
- A data center migration will be taking place on June 11, 2016, from 7am to 7pm that will affect all MD iMAP hosted apps.

Subcommittee Update

Training Program – Lisa Lowe

- Training at Towson University next week
- Locals have increased interest in training program
- Next training course is in Salisbury
- Update to AGOL next week that could affect training documentation, changes to item description page appear to be most significant
- Program will continue to run through January and will be reevaluated in new year
- Online training users' needs publisher credentials
- Frank Siano got positive feedback from those who took training

Centerlines – Marshall Stevenson

- Focusing on HPMS submission
- After June 15 the team will be refocusing on the centerline project
- Data cleanup is priority
- Hoping to wrap up by July 1

Composite Locator – Jeyan Jebaraj

- New data submission is underway
- Next composite locator push should be in a few weeks
- Working on feedback system to provide locals with comments

Imagery Program – Lisa Lowe

- Entering QC phase
- Howard County loaded into QA tool and are actively reviewing
- QA/QC planned completion in mid-October
- Final data corrections are due end of October
- Still on track for end of year final delivery
- SHA is working on combining the imagery into their basemap products

Applications – Jessie Cahoon

- Web AppBuilder template now available
- Documentation being finalized

Technical Committee Format – *Matt Sokol*

- The demo of products in the GIS Software Master Contract is planned for future meetings.
- It is planned to have an MD iMAP Tech. Comm. meeting “Roadshow” targeted to a county or regional local government group. This may be in August or September. Mara received some feedback and will provide it to the group.

MD iMAP Portal Update – *Matt Sokol*

- A status dashboard is planned for the portal that will provide a high level look at the systems running.
- Other new dashboards are in the works.
- The GIS contract page will be updated
- Please let Gary Maragos know if you have issues dropping the parcel extract tool from the site.
- Subscribe to the MDP GIS mailing list for updates to changes with MD PropertyView
- SHA noted they are publishing to the MD iMAP Data Catalog
- DNR’s FTP server that provides data downloads recently crashed. While back up and running, DNR is working on moving more data the the MD iMAP Data Catalog.
